

NFWT

Non-Fair Wear & Tear Procedures for Facilities

- DPW Technician's will identify service orders as NFWT. No further action or repairs will be done until Unit pays for repairs by completing a Statement of Charges and having their finance department stamp the paperwork paying for damages.
- Units can also identify NFWT prior to calling DPW's Service Order Section 396-0321 for a service order. Once again, no further action or repairs will be performed until the unit agrees to fund them.
- When unit calls DPW's Service Order Section, please state the specific problem as NFWT for proper distribution of service order to DPW's Customer Services Branch (DPW-CSB) 396-4807, where unit will pay for damages by using one of the below listed methods:
 1. Unit Government Purchase Card [Unit must coordinate with GPC approving official prior to work], then by using a DD Form 139 to collect the money, it can be refunded directly back to the unit's fund site.
 2. Units or the Soldier(s) themselves can choose to directly pay the contractor DPW has arranged to perform the repairs.
 3. MILSTRIP or MIPR funds to DPW-CSB for disbursement
- Response to the service order will be from an approved contractor of DPW-CSB. Contractor will inform unit of repair cost & provide itemized receipt upon completion. DPW-CSB will conduct a final inspection to ensure work meets all necessary codes and/or standards.

- If Unit finds a Soldier(s) accountable, the unit processes a DD form 139 on the Soldier(s) to recoup the money for the damages done. Using this form directs the money back to the unit's fund site instead of being lost forever.
- When a Standard Statement of Charges (DD Form 362) is performed, Fort Bragg loses the money forever. The repair cost comes out of DPW's normal funds & Soldier's money goes to DA never to be used by Fort Bragg directly.
- Unit is accountable to DPW. It is the Unit's responsibility to hold their Soldier(s) accountable for their actions.
- Unit can also order a 15-6 investigation or have MPs, MPI, or CID do a criminal investigation if necessary.
- Amount Soldier(s) are accountable for:
 1. Non-willful damages: 1 month's pay (i.e. accidentally backs into Motor Pool gate)
 2. Willful damages: Total amount of the repair. There is no limit. (i.e. soldier drives Humvee through Motor Pool rollup door from anger)
